

Why should your business implement Cyber Essentials?

Cyber Essentials is a simple and effective Government-backed scheme, that will help you put measures in place to protect your organisation, regardless of size or sector, against the majority of common cyber-attacks. This includes protecting against threats such as malware, ransomware and phishing.

Benefits of Cyber Essentials

Demonstrates a professional approach to business and the importance of cyber security.

Peace of mind knowing that your data is protected and your security systems are robust, should a cyber-attack occur.

For further business opportunities, Cyber Essentials will enable you to tender for specific contracts.

Eligible for free cyber insurance cover which could save you up to £25,000.

Cyber Essentials certificates issued in the previous 12 months will be displayed on the NCSC website

Being certified will help new customers to trust you and allow you to stand out from competitors as a more credible company.

Gain a clear picture of your company's cyber security level using the self-assessment questionnaire.

Our Trusted Partners are a group of expert cyber security companies in the North West who can assist you in the process of achieving Cyber Essentials and Cyber Essentials Plus accreditation.
